

28 *DAY* DETOX

METABOLIC RESET

A structured whole-food plan with targeted product support

LIVEPURE's 28 Day Detox / Metabolic Reset, when combined with a healthy diet and exercise, was developed to help you reduce your intake of processed foods, added sugars and refined flour while you become more accustomed to eating whole foods. This guide gives you a food guide, portion guidance, a product routine and a 28-day calendar to support this short-term shift.

As you move away from highly processed eating patterns, many people notice improved energy, clearer focus and modest weight loss.* Results vary with adherence, starting diet and overall lifestyle. The goal is a practical on-ramp to lasting whole-food habits, not a permanent restrictive regimen

YOUR PRODUCTS & PROTEIN

Your pack includes one **Core Start** plus the products listed under **Included**. Products under **Optional** can be added, but they are not required for the 28 days. One planned Vegan Vanilla Protein Shake plus a small protein portion (eggs, fish or tofu) so the day reaches about 60–80 g. Add a little more if you are still hungry or lightheaded.	Center the day on the Vegan Vanilla Protein Shake. At dinner, have a second shake or a palm of fish, eggs or tofu. Follow the Shake schedule on the Daily Calendar.	Choose higher-protein foods (fish, poultry, beef, eggs, tofu) and use a second palm-size portion at lunch or dinner. Use the full Food Guide.

MIXING YOUR SHAKE: Mix 1 serving of Vegan Vanilla Protein with 8–12 fl. oz. **unsweetened milk of choice.**

HOW YOUR 28 DAYS WORK

THREE DAY TYPES

- **Cleanse days** stay lower volume but include a planned shake, broth with 1 Tbsp. coconut oil or butter, and 1 tsp. fat at lunch.
- **Shake days** center on the Vegan Vanilla Protein Shake.
- **Meal days** use the full Food Guide with a second protein portion.
- **Day 16 is a Flexible day** (Thanksgiving) after 15 days on the plan.

HOW TO USE THE PORTIONS

Start with the base portions. Add more only when your body asks for it.

- **Base day:** one protein palm at lunch and one at dinner. No extra protein on Cleanse days, no snack fat on Meal days.
- **Add a portion only** if you are hungry again within 2 hours, lightheaded or dragging.
- **Smaller, less active or focused on the loss?** Stay on the base portions.

PORTION REMINDERS

- 1 protein portion is about the size of your palm (a deck of cards).
- 1 carbohydrate portion is about a handful (½ cup).
- Vegetables are 2 handfuls.
- On Meal days, use 1 Tbsp. fat at lunch and dinner.
- On Shake and Cleanse days, include fat from the Food Guide (e.g., a small handful of nuts, ½ avocado, 1 Tbsp olive oil or butter, or a few olives).
- Drink about 16 fl. oz. of water with each block of the day.

- **Larger or more active?** Start with the add-ons: Cleanse eggs, fish or tofu · Shake protein to 70 g · Meal 2nd palm.
- **Afternoon crash?** Add at mid-afternoon. **Hungry after dinner?** Add at lunch next time.
- **End of Week 1:** steady = stay put · drained or hungry = use the add-ons · never hungry = drop the extras.

NOTE: Feeling satisfied is important to your success. Use the recommended portions as a guide and adjust as needed to meet your individual nutritional needs. Week 1 (Days 1–7) is written out in full on the Daily Calendar. Days 8–28 are not a repeat of Week 1: find the day in the Days 8–28 rows and follow the schedule for that day type. Do not continue past Day 28.

FOOD GUIDE

In preparation for LIVEPURE's 28 Day Detox, it is important to stock your pantry and refrigerator with healthy foods. Prior to your detox, shop for fresh fruits and vegetables. Whole grains and plant-based protein can be kept dry and stored in airtight containers. Animal protein (preferably free range, grass fed and hormone free) can be purchased fresh or frozen and stored appropriately. Use this Food Guide to help you prepare a shopping list, then review the Daily Calendar for food quantities.

¹ Mix 1 serving Vegan Vanilla Protein with 8–12 fl. oz. unsweetened cashew milk. On Cleanse days, take it at lunch or split it between lunch and dinner.

² FOCUS (1 serving a day): take it with OnTrack and Organic Sulfur in the early morning, OR blend it into your smoothie. PURE Café Bold may replace FOCUS. Do not take both. If you make the smoothie, Daily Build and Fusion are not optional.

³ Cleanse days: 1 tsp. fat at lunch, plus 1 Tbsp. coconut oil or butter in the broth at lunch (or at dinner if it was not added at lunch). Avoid MSG in bouillon.

⁴ Meal days: one carbohydrate handful at lunch OR dinner, not both. The second protein palm goes at lunch OR dinner, not both. Start with base portions and add only if still hungry.

⁵ Optional early morning: Probiotic (2 capsules), Metabolic Max (2–3 capsules), Aqua Lean (1 stick in 8 fl. oz. water).

⁶ 15–30 minutes before lunch: OnTrack (2 capsules), not optional. Metabolic Max (2–3 capsules) is optional. A second Aqua Lean stick is allowed here if the morning stick was not used. Do not exceed 2 Aqua Lean sticks a day, and do not take Aqua Lean in the evening.

⁷ Day 16 is a Flexible day: eat what you want, but don't overdo it. Daily products may be kept if tolerated; no supplements with alcohol. Return to the Cleanse schedule on Day 17. Day 28 ends the cycle; do not continue past Day 28.

⁸ Cleanse: 1 serving in the evening. Take capsules with water only.

WHY DETOX?

WE ARE REGULARLY EXPOSED

to chemicals and other harmful substances in our food, water, household products and the air we breathe. The body is built to process and eliminate them, but exposure is at an all-time high. It is important to supply the body with appropriate nutritional tools to help with its built-in detoxification systems. A high intake of packaged food adds to the burden. The result: low energy, extra body weight and a foggy, run-down feeling.*

SUGAR IS HIDING

Most added sugar does not come from candy. **Over 90%** of the sugar we consume comes from processed and packaged foods. The average American consumes **77–88 pounds of sugar a year**, the equivalent of 5 ½ full-size candy bars a day. Add to this almost 200 pounds of refined flour and cereal products each year.

This plan guides you to eat fewer processed foods, added sugars and refined flour, while adding whole foods, protein and fat in the correct portions. Cleanse days are the detox step inside the plan.

TIME-RESTRICTED EATING

Refrain from eating at an evening hour that is convenient for you (7 p.m., 8 p.m., 9 p.m., etc.) and wait approximately 12 hours before eating again. For instance, if you stop eating at 8 p.m., eat breakfast at 8 a.m. This mild overnight window supports the plan's structure and may help with overall intake control.

FLEXIBLE DAY - DAY 16

Enjoy the day, but do not overdo it. Daily products may be kept if tolerated. Do not take supplements with alcohol. Return to the Cleanse schedule on Day 17.

POST-RESET MAINTENANCE

After completing a 7-day or 28-day cycle, continue the Core Start products along with Greens, Mila, GPS Hydrate and Organic Sulfur as your foundation. Use the Vegan Vanilla Protein Shake and OnTrack as needed to support protein intake and weight-management goals. Emphasize plant-based whole foods, healthy fats and consistent habits. Cycle a 28-day reset every 60–90 days; a 7-day version may be repeated every 30 days.

IMPORTANT CAUTIONS

Not intended for young children. If you are pregnant, nursing, taking prescription medication or have a medical condition, do not follow this program without the advice of a qualified healthcare professional. Do not follow the plan beyond 28 days. If you feel lightheaded or nauseated, have a shake or more food. On a sodium-restricted diet? Ask a qualified healthcare professional before you start.
